AIS Rental Service

[Advanced Ink System]

InkJoy's Unlimited Ink Color Printer Rental Service

InkJoy provides a printing system that utilizes high-volume ink container directly linked to our specialized cartridge. Since the container is placed outside the printer, there is no need to replace the cartridge as often. **This also significantly reduces environmental hazards** that used cartridges may cause. The greatest advantage, of course, is the reduced cost of maintenance as our system can **cut down your printing costs up to 90%.**

Who would need such system?

Because printers are often shared by different individuals with different needs, maintenance can be very tricky. InkJoy offers the perfect management solutions for following cases.

- Printers are shared in offices/stores
- Monthly printer output exceeds several hundreds or thousands
- color printing exceeds black-and-white printing
- it is difficult to manage printers or their parts
- You want to save money

InkJoy's Free Printer Maintenance Service

When you purchase a printer, you may find that the warranty period on the product too short and/or that personally managing printer-related issues can be a daunting task. InkJoy's Printer maintenance Service offers necessary installation and maintenance services at no cost to you.

- Printer system installation
- Training on printer use and management
- Repairs on leased printers
- Replacement of printers with same-grade printers in cases of mechanical defects
- Unlimited ink
